5 ANNI DOPO: I LAUREATI POLIMI NEL MONDO DEL LAVORO

METODOLOGIA DI INDAGINE

Il Politecnico di Milano ha condotto un' indagine occupazionale sui laureati a 5 anni dal conseguimento del titolo al fine di capire il valore del titolo di laurea nel tempo sul mercato del lavoro.

CAWI: online **CATI:** Contatto telefonico

QUESTIONARIO DI 20 DOMANDE

CAMPIONE LAUREATI TRIENNALI ITALIANI 2014

I laureati italiani non preoseguenti nel 2014 sono 1.641
Hanno risposto alla survey in 956
Tasso di risposta 58%

CAMPIONE LAUREATI MAGISTRALI ITALIANI 2014

I laureati magistrali italiani nel 2014 sono 3.817
Hanno risposto alla survey in 2.178
Tasso di risposta 58%

CAMPIONE LAUREATI MAGISTRALI STRANIERI 2014

I laureati magistrali stranieri nel 2014 sono 695
Hanno risposto alla survey in 325
Tasso di risposta 47%

L'indagine è stata svolta a luglio nel 2020 attraverso una metodologia integrata (CAWI: online e CATI: telefonico). I laureati sono stati invitati a rispondere a un questionario a risposta multipla di circa 20 domande.
